EXECUTIVE SUMMARY

Ashford Global Macro Fund, Ltd. (the “**Fund**”) is an exempted company incorporated under the laws of the Cayman Islands on April 18, 2016. The Fund is managed by **Ashford Asset Management LP** (the “**Investment Manager**”), a Delaware limited partnership registered as an investment adviser with the U.S. Securities and Exchange Commission.

The Fund pursues a **discretionary global macro investment strategy**, seeking to generate absolute returns with low correlation to traditional equity and credit markets across a range of liquid asset classes, including global currencies, sovereign interest rates, equity indices, commodities, and credit instruments. The strategy combines top-down macroeconomic analysis with bottom-up relative value trade construction.

The Fund seeks investors who are sophisticated, long-term oriented, and capable of bearing the economic risks associated with an investment in the Fund, including the potential loss of their entire investment.

INVESTMENT STRATEGY

Overview

The Fund's strategy is organized around four primary sub-strategies, each managed by a dedicated portfolio team:

Sub-Strategy	Target Capital Allocation	Description
Directional Macro	30% — 40%	Thematic long/short positioning across currencies, rates, and equity indices
Relative Value	25% — 35%	Cross-market relative value trades with defined stop-loss discipline
Emerging Markets	15% — 25%	Sovereign credit, local rates, and currencies in EM economies
Tactical / Opportunistic	10% — 20%	Short-duration tactical positioning around market dislocations

Risk Management

The Fund operates with a target annualized volatility of 10% — 12% and a maximum portfolio Value-at-Risk (95% confidence, 1-day horizon) of 2.5% of NAV. Stop-loss discipline is enforced at the individual trade and sub-strategy level.

FEE STRUCTURE

Management Fee

The Fund shall pay to the Investment Manager a monthly management fee equal to **1.75% per annum of the Fund's Net Asset Value**, calculated and accrued monthly and payable in arrears.

Incentive Allocation

The Investment Manager (through a related performance allocation entity) is entitled to an annual **Incentive Allocation of 20%** of the Fund's Net New Profits, calculated at the end of each calendar year, subject to a **perpetual High Water Mark**. No Incentive Allocation is payable with respect to a Capital Account until the balance of that Capital Account exceeds the highest previous year-end balance of such Capital Account.

There is **no hurdle rate** applicable to the Incentive Allocation.

SUBSCRIPTIONS AND REDEMPTIONS

Subscriptions

Subscriptions for Shares are accepted on the first Business Day of each calendar month (each, a “**Subscription Day**”). The minimum initial subscription is **\$1,000,000**; minimum additional subscriptions are \$250,000. Subscription documents must be received by the Administrator no less than five (5) Business Days prior to the Subscription Day.

Redemptions

Shareholders may redeem Shares as of the last Business Day of each calendar quarter (each, a “**Redemption Day**”), subject to the following:

Term	Requirement
Redemption Frequency	Quarterly (last Business Day of each calendar quarter)
Notice Period	60 calendar days prior written notice to the Administrator
Payment	95% within 30 days of Redemption Day; balance after audit sign-off
Minimum Remaining	\$500,000 (partial redemptions below this amount require full redemption)

Lock-Up Period

Each subscription is subject to a **soft lock-up period of twelve (12) months** from the date of investment. Redemptions effected during the lock-up period are subject to a **3% early redemption fee**, which fee shall be retained by the Fund for the benefit of the remaining Shareholders.

Gates

The Directors, in consultation with the Investment Manager, may impose an **investor-level gate of 25%** of a Shareholder's Shares per quarter, as well as a **fund-level gate of 20%** of aggregate NAV per quarter, if aggregate redemption requests exceed such threshold. Gated redemption amounts shall be carried forward to the next Redemption Day on a pro rata basis.

Side Pockets

The Investment Manager may, from time to time, designate certain illiquid or hard-to-value positions as “Special Investments” and allocate them to segregated **Side Pocket sub-accounts**. Side Pocket allocations are not subject to normal redemption and shall be distributed upon realization. The Investment Manager has not designated any Special Investments as of the date of this Memorandum.
